2021 Cabernet Sauvignon

Region

Hilltops, NSW

The Special Release label gives Mike and the winemaking team the opportunity to create unique and interesting wines. These handcrafted wines are available only to our DeWine Club members and cellar door guests.

The Story

Sourced from the cool climate Hilltops region in south western NSW.

The resulting wine is a fantastic expression of cool climate New South Wales with great perfume and hint of French oak on the nose.

The Wine

A herbaceous palate filled with bell pepper, eucalyptus and framed by luscious blackcurrant.

The palate has an exceptionally fine tannin structure giving the wine great length.

The Vintage

The growing season bought spring rain which helped canopy growth in the vineyards.

A cooler and longer ripening period allowed for red wines that are spice driven and have complex characteristics.

The Potential

Cabernet Sauvignon has the potential for short-medium term ageing but we really enjoy the young characteristics of this wine right now.

The choice is yours to either drink up or stash away for the next five years.

The Match

A slow-roasted lamb shoulder alongside roasted root vegetables will be a treat with the 2021 Special Release Cabernet Sauvignon.

A good slathering of homemade mint jelly sauce will be perfect!
